For the Spirit of the Ag.

Written at the Agricultural Fair held at Henderson. INSCRIBED TO M ... OF THE CIRCLE. BY G. S. B. H.

I gazed upon the living throng Saw joyous creatures float along, The young, the old, the gay, the fair, Mingled in bright union there.

There were those who men delight To deck with worldly honors bright, Here lenming on his staff the sage Bent with the mighty weight of age.

I saw around me wit and grace And many a fair and lovely face, Sparkling eyes full many a pair Would far eclipse the diamond's glare.

Nature and art their store outpoured And crowds surround the festal board, Jewels flashed on snowy arms And music lent its varied charms. But what were all these scenes to me

They could not but unneeded be, When she was there who far outshown The splendors of the rising morn. Fragile her form but every joy

of Heaven, was her's without alloy, Her eye the Rainbows sweetest blue Can never match the lovely hue. Angels looked down and wondered while

Her ruby lips wreathed in a smile,

Nor dreamed that she although on earth Could be of aught, save heavenly birth. If every honor world could give And all its wealth could I receive, All, all I gladly would resign

Could I but call this treasure mine. Henderson, Nov. 1856. For the Spirit of he Age.

The Dewdrops. How pure, how bright is the tiny thing It beems where the birds of the morning 'Tis like a tear from an angels' eye,

Or a pearl flung down from the vernal sky, To deck the bridal robe of the dawn As it weds the flowers on the grassy lawn. In the silver cup of the daisy it lies,

On the breast of the primrose in love it sighs, On a pathway of smiles it shall glide to the In a chariot of incense its course shall be

To return again on a sunset ray, And relate to its lone the sports of the day.

The emblem of virtue unsullied it seems, The emblem of beauty we see in our dreams, 'Tis a pledge of faith, by the breeze to be

With holy vows to the clouds of heaven; Oh who can tell where the fairies keep Their mighty watch when the dewdrops sleep:

When the rosebuds bow to unfold each charm When the air is rich, and the green earth 'Tis then that the dewdrop shines most

bright, Tis then that it rivals the diamond's light, As it bids farewell to the sunny scene And weeps into air where its bower has been.

AGRICULTURAL.

And the second second Curing Bacon without Smoke. "Oh the trouble felks have taken To smoke and spoil their bacon."

To Smoke the best bacon, fat your hogs. early and fat them well. By fattening early you make a great saving in food, and well fattened pork. Then kill as early as the wenther will allow, and salt as soon as the animal heat is gone, with plenty of the purest salt, and about half an ounce of saltpetre to one hundred pounds of pork.

As soon as the ment is salted to your taste, which will generally be in about five weeks,? ake it out, and if any of it has been covered with brine, let it drain a little. Then take black pepper, finely ground, and dust on the, book end as much as will stick, then hang it up in a good, clean, dry, airy place. If all this is done as it should be, (it ought to be done now,) you will have no further trouble with it, for by fly time in spring, your bacon is so well cured on the outside, that flies or bugs will not disturb it.

Curing bacon is like the Irishman's mode of making punch. He said :- put in the sugar, then fill it up with whisky, and every drop of water you put in after that spoils the punch. Just so with curing bacon, after following the directions given above, every "drop" of smoke you put about it, spoils the bacon. - Canadian Agriculturist. THE GREATEST MEDICAL DISCOVERY OF THE AGE.

Dr. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures EVERY KIND OF HUMOR;

From the worst scrofula down to a common pimple.

He has tried it in over 1100 cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its virtue, al! within twenty miles of Two bottles are warranted to cure a nursing sore

most desperate case of rheumatism. Three to four bottles are warranted to cure the salt rheum. Five to eight bottles will cure the worst cases of A benefit is always experienced from the first bottle, and a perfect cure is warranted when the

above quantity is taken. Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another; after a trial it always speaks for itself. There are two things about this herb that appears to me surprising; first that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846-second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I peddled it, and sold about six bottles per day-in April, 1854, I sold over one thousand bottles per day of it. Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all

In my own practice I always kept it strictly for humors-but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected. Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful malady-there are but few who have seen more of it than I have. I know of several cases of Dropsy, all of them aged people, cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in diseases of the Kidneys, &c. the discovery has done more good than any medicine ever known.

No change of diet ever necessary-eat the best you can get and enough of it. DIRECTIONS FOR USE -Adults one table spoonful per day-Children over ten years dessert spoon-

North East Pennsylvania, March 9, 1855. SIR: In consequence of having hair, for several years past, not only gray, but perfectly white, I have cut it short, and worn caps to hide it from view; but some three months since, I was induced to use your Hair Restorative, and I must, in justice say, that its effects were almost miraculous; for it has changed it gradually to almost its for-mer splendor as to color, and left it so soft and glossy as to be more beautiful than it ever was, under influence of the finest oil. I earnestly therefore, recommend it to every lady as decidedly the best preparation for toilet use, of anything in the world.

BESSY SMITH.

PROF. WOOD—Having experienced the magic effect of your Hair Restorative, I drop you a line upon the subject. About two years ago, my hair commenced falling off and turning gray; I was fast becoming bald. I met a friend who had used your Restorative, who spoke so highly of its virtues, I was induced to try it, although I had but little taith, as I had before tried so many other remedies. I commenced using your Restorative in January last. A few applications fastened my hair firmly. It began to fill up, grow out, and turned back to its former color, (black). At this time, it is fully restored to its original color, health and

Milford, Worcester co., Nov. 13, 1854. PROF. O. J. WOOD-Dear Sir : I take pleasure in bearing voluntary testimony to the magic effects of your wonderful Hail Restorative. As far back as 1836, my hair commenced falling off, until the top of my scalp became bald and smooth as glass, and it has continued to fall for a great many years, notwithstanding I have used many celebrated preparations for its restoration. Seeing your advertisement, I was induced to give your article a trial, and, to my utter astouishment, I found, afly set, and assumed a glossy and beautiful appearance; and by the time I had used a quart bottle, my bald head was covered over with a young and vigorous growth of hair, which is now from one to twe inches in length, and growing fast.
